Family Tree as a Graph

Discrete Mathematics & Graph Theory · The Bhadke Family

Submitted by: **Samyak Bhadke**

USN: **CS25041**

Submitted to: **Mama**

TAE-II-DMGT

Generation Gap from You (Samyak)

PERSON	RELATION TO YOU	GEN. GAP	EDGES
Samyak Bhadke	You	0	0
Dipak Bhadke	Father	1	1
Lata Bhadke	Mother	1	2
Devendra Patil	Aunt	1	3
Sagar Patil	Uncle (by marriage)	1	4
Vimal	Grandparent's sibling	2	4
Zituji	Grandparent	2	2
Khulu	Grandparent's sibling	2	4
Gondu Narayan Bhadke	Great-grandfather	3	3
Rabai Gondu Bhadke	Great-grandmother	3	4
Mulka Narayan Bhadke	Great-grandparent's sibling	3	5
Tuza Narayan Bhadke	Great-grandparent's sibling	3	5
Phatta Narayan Bhadke	Great-grandparent's sibling	3	5
Narayan Bhadke	2x great-grandparent	4	4
Menga Bhadke	3x great-grandparent	5	5

Shortest Path: You to Oldest Ancestor

Samyak → Dipak → Zituji → Gondu → Narayan → Menga
5 edges / 5 generations

Key Observations

- Each person is a vertex (node); 15 vertices in this graph.
- Parent-child relationship is a directed edge (11), marriage is an undirected edge (3).
- Gen. gap = difference in generation level; Edges = length of the shortest path between two vertices.
- Without marriages: 12 vertices, 11 edges ($V - 1$) — connected and acyclic, so it is a tree.
- Narayan Bhadke has the most children here: 4.
